

**ETHIOPIAN EXPORT ABATTOIR
CERTIFIED AND ACCREDITED BY UAE**

ESTABLISHMENT

JESH is private Limited Company established in with a total investment of over 350 million birr. The company's head office is located at JESH Park, Faafan, 35 km away from JIJIGA on the Harar Road.

INTRODUCTION

Jiggiga export slaughterhouse is one of the most modern slaughterhouses in Ethiopia. The factory has one of the most modern refrigeration facilities in Africa, equipped with financial support from USAID. It has international food safety certification by UAE government.

The factory has a fleet of refrigerated trucks that can move large quantities of chilled meat and animal transport trucks that can move animals from pastoral areas to the factory.

OBJECTIVES

Creating and strengthening supply network to secure continuous supply of animal for the abattoir and meat and meat products to local and international markets. Increasing the number and quality of marketable animal at farmers holding by conducting continuous training and breed up grading practice to exploits the huge livestock potential of the region. Creating reliable and sustainable animal market for farmers in Somali region & the neighboring regions consistently.

VISION

To be the leading producer of organic chilled and frozen meat and by-products in Africa.

MISSION

To increase income of pastoral community by creating sustainable livestock markets, supplying livestock fattening input, giving training and technical services to improve their livelihood in the region (specially in Ethiopian Somali State).

THE PLANT CAPACITY

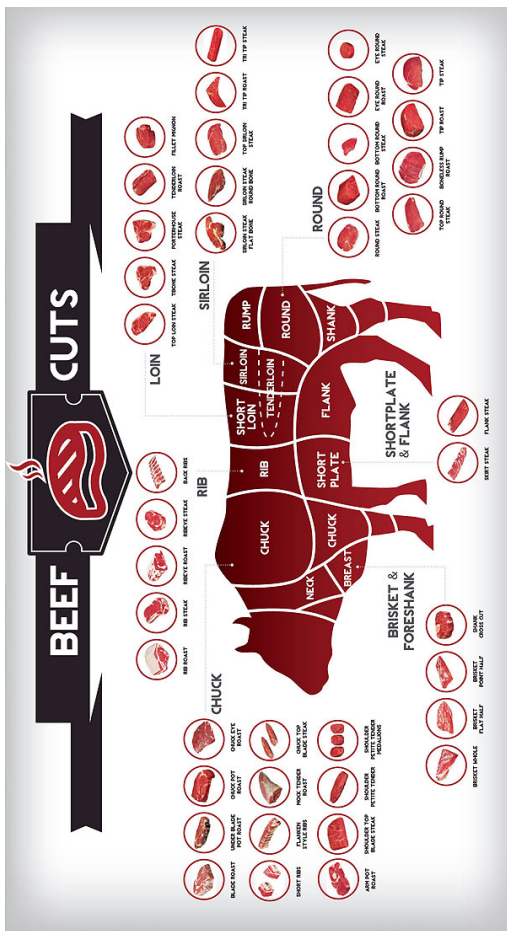

The plant is equipped with high quality, state-of-the-art machinery and equipment. The abattoir has a daily slaughtering capacity of 3,000 heads of goat or sheep and 200 heads of cattle as well as daily capacity of 100 camels. There are 13 chillers, 3 blast freezers and 3 large cold rooms installed in the abattoir with the combined chilling and storage capacity of 400 metric tons of meat at any one time.

HUMAN RESOURCES

The company gives due attention to its human resources development since it is the bases for the best performance of any company. Accordingly, the operation of the plant is lead by a highly qualified team of professionals specialized in meat technology. Currently, the company has employed over 100 dedicated skilled staff. At full capacity the facility can employ over 200-300 people.

TRANSPORTATION CAPACITY

The company owns large fleet of cold trucks that can transport more than 50 metric tons of meat at any one time. There are also especially purpose made animal transportation trucks that comply with international best practice when transporting animals.

JICJIGA EXPORT SLAUGHTER HOUSE is an international standard export facility certified and accredited by UAE Government

OUR PRODUCTS

JESH PLC has ambitious vision to become Africa's most modern abattoir that processes largest number of lowland goats and sheep.

Currently, JESH plc exports chilled goat and sheep carcasses to UAE. JESH meat is 100% organic as the animals are from pastoral areas where they grow up in natural setting and 100% grass fed.

Thus, the meat quality is better than others from feedlots or farm settings.

Our products include but are not limited to:

- Fresh Chilled goat and sheep carcasses
- Fresh chilled for quarter bone in beef
- Fresh Frozen bone-in goat and sheep) carcass
- Fresh Frozen bone-in and boneless beef
- Special Cuts of meat
- Fresh chilled and frozen Camel meat
- White and red offals from goat, sheep, cattle and camel

JESH ADVANTAGE

The factory has a competitive advantage over many others in the country because it is situated close to where the majority of the lowland animals are normally found the Somali goat and Somali Black Head Sheep.

JIGJIGA EXPORT SLAUGHTER HOUSE is an international standard export facility certified and accredited by UAE Government
